Wedding Budget Planner

Printable version. The Excel file calculates the totals for you.

Total wedding budget: _____

Guest count: _____

Contingency allowance (%): _____

Starting shares are editable assumptions to adapt to your own priorities, not averages or recommendations.

Category	Share %	Allocated	Planned	Actual	Remaining
Venue	18%				
Catering and bar	30%				
Photography and video	10%				
Music and entertainment	7%				
Attire and beauty	8%				
Flowers and decor	7%				
Stationery and paper	2%				
Transportation and lodging	4%				
Ceremony, officiant and license	4%				
Taxes, fees and gratuities	5%				
Gifts and extras	3%				
Other	2%				
Total	100%				

Formulas

Allocated = (total budget - contingency) x share

Remaining = allocated - actual

Cost per guest = total actual / guest count

Contingency = total budget x contingency %

Notes
