Wedding Photo Scavenger Hunt

30 photo challenges for your guests, plus printable cards.

How to play

- ☐ Guests pick up a card, or use the master list on a sign.
- ☐ They photograph as many challenges as they can during the night.
- ☐ There is no winner and no scoring. It is a reason to look around the room.
- ☐ A shot limit makes guests choose their moments.
- ☐ Keep it optional: a guest who ignores the list and shoots freely is doing it right.
- ☐ Team variation: give each table one list and see which table finds the most. Prize optional.
- ☐ Always ask before photographing someone, and delete a photo if asked.

Optional: collect the photos with Evershots. Guests scan a QR code and shoot, with no app to download and no account.
